Thank you and welcome you to the College of Architecture and Engineering. Technology and built environment studies in this region. Tracing its roots to the good old Royal East Africa Technical College, the College is as old as the University of Nairobi.

Located at the Main Campus, the College of Architecture and Engineering has played a key role in the development of the nation and region both infrastructurally and economically. Students from most of the countries in the region have received training here and have applied their knowledge to solving practical problems for government departments and agencies, local authorities and private sector organizations.

The college comprises of three Schools and one Institute namely:

School of Engineering

School of the Built Environment

School of the Arts and Design

Institute of Nuclear Science and Technology.
